Digital Futures Fall 2026 Pilot Feedback Survey Questions Preview

About this preview
These questions give prospective participants a preview of the feedback requested before and after facilitating a Digital Futures pilot lesson. We ask for specific feedback on the lesson packet and your facilitation experience, including general classroom observations, not assessments of individual students. Do not include student names or other personally identifiable information.

This document is for preview only; questions may be revised. Selected participants will receive links to complete both surveys in Qualtrics through their acceptance email.
